Forensics Camp

Available Weeks:
Week 1: June 7 - 12
Week 2 June 14-19

Open to students in 9th - 12th grade
* Grade in Fall of 2020

Activities include fingerprinting and fingerprint visualization techniques and comparison, blood spatter pattern analysis and crime scene findings and crime solving!

Learn the basic principles of different forensic science disciplines in a dual lecture and laboratory or field setting, and explore the techniques behind the identification of crime evidence.
